

Serving the  
Medical Practices of Georgia

## Your Reliable IT Business Partner

*eClinicalWorks*

**RELITEK Solutions is the Premier Medical Field IT Solutions Provider** with years of experience planning, deploying, and supporting practice management solutions. We understand how critical practice management software is for physician's offices as it pertains to daily operations.

Performing tasks such as backups, software updates, server and network stability, security, and providing day-to-day support is only a small part of our service offering.

*“Deploying Electronic Medical Records technology is rapidly becoming a de facto standard in the medical field.”*

### **Electronic Medical Records Conversion Experts**

Deploying Electronic Medical Records technology is rapidly becoming a de facto standard in the medical field. RELITEK has a wide array of experience with connecting many devices to the network that integrate with your practice management solution.

## What Our Clients Say

*"In the midst of planning a complete network overhaul, working with OfficeMate, the RELITEK team delivered a clear cut solution for our optometry practice. Their professional consulting guidance gave us the edge we needed to deploy the latest version of OfficeMate on a new server, and also get our imaging machines connected to the network to allow us to become fully compliant for electronic medical records (EMR) transfer. We have been very impressed with their teams responsiveness, and would highly recommend them to any practice needing IT assistance." — Dr. Lewis Frey*

*"In the past few years RELITEK Solutions has done an outstanding job taking care of all our IT support needs for the main office and surgery center. Our network and servers have been extremely reliable along with our Compulink software, which is critical to our day-to-day operation. Their team is radically responsive and very professional. It is also worth noting that their fees are very reasonable. We would recommend RELITEK to any business." — Dr. Richard Carlin*

*"RELITEK has completely changed the technology situation in our office. They've provided affordable and reasonable options to our pre-existing technological problems. Before we were limited as to what software we could use and now we've become more technologically-advanced and secure utilizing OfficeMate and ExamWRITER. The service that we receive is unmatched in speed and value. The entire team is extremely friendly, reliable and easy to get in touch with. We would recommend RELITEK Solutions to anyone." — Dr. Jim Wood*
