

Your Reliable IT Business Partner

Serving the Ophthalmology and Optometry Practice

RELITEK Solutions is a Premier Ophthalmology and Optometry IT Solutions Provider with years of experience planning, deploying, and supporting practice management solutions such as CompuLink, Management Plus, and OfficeMate with ExamWRITER. We understand how critical practice management software is for physician's offices as it pertains to daily operations. Performing tasks such as backups, software updates, server and network stability, security, and providing day-to-day support is only a small part of our service offering.

“Deploying Electronic Medical Records technology is rapidly becoming a de facto standard in the medical field.”

Electronic Medical Records Conversion Experts

Deploying Electronic Medical Records technology is rapidly becoming a de facto standard in the medical field. RELITEK has a wide array of experience with connecting most imaging devices to the network such as the Humphrey, Nidek, Zeiss, and Topcon, then integrating these devices with your practice management solution.

What Our Clients Say

"In the past few years RELITEK Solutions has done an outstanding job taking care of all our IT support needs for the main office and surgery center. Our network and servers have been extremely reliable along with our Compulink software, which is critical to our day-to-day operation. Their team is radically responsive and very professional. It is also worth noting that their fees are very reasonable. We would recommend RELITEK to any business." — **Dr. Richard Carlin**

"For more than two years, Prevent Blindness Georgia has the pleasure of working with RELITEK Solutions for all our IT needs. Our professional relationship with them began when we moved from one location to another; it was no small task to set up our new location with wires, cables, connections and our network equipment, new telephone equipment and computers. Yet, RELITEK handled everything expertly and with great patience and care. Their prices are reasonable; their services are prompt, professional and reliable." — **Jenny Pomeroy**

"RELITEK has completely changed the technology situation in our office. They've provided affordable and reasonable options to our pre-existing technological problems. Before we were limited as to what software we could use and now we've become more technologically-advanced and secure utilizing OfficeMate and ExamWRITER. The service that we receive is unmatched in speed and value. The entire team is extremely friendly, reliable and easy to get in touch with. We would recommend RELITEK Solutions to anyone." — **Dr. Jim Wood**
